

“... a computer is ... the equivalent of a bicycle for our minds ...”

bicycles go where **you** want them to

GUIs go where **they** are designed to go

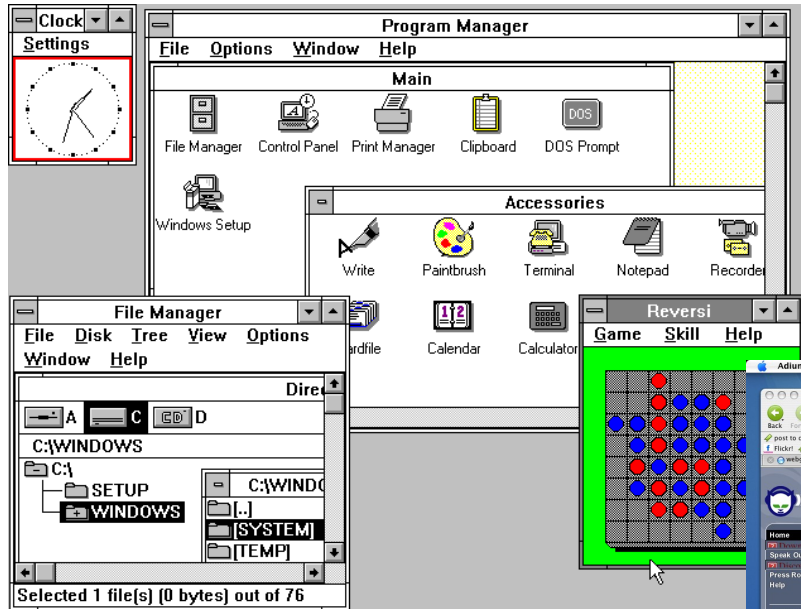

... if you're lucky ...

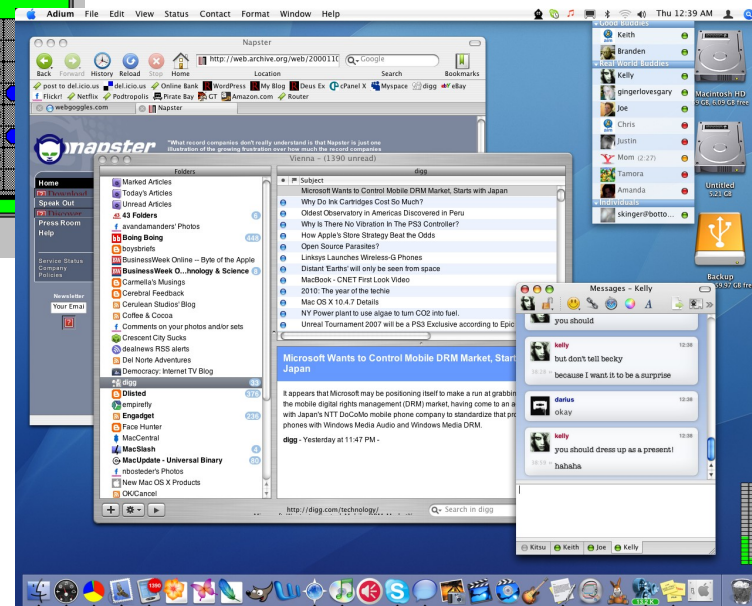

paradigms haven't changed much (... and touch GUIs are no more flexible)

1990

2012

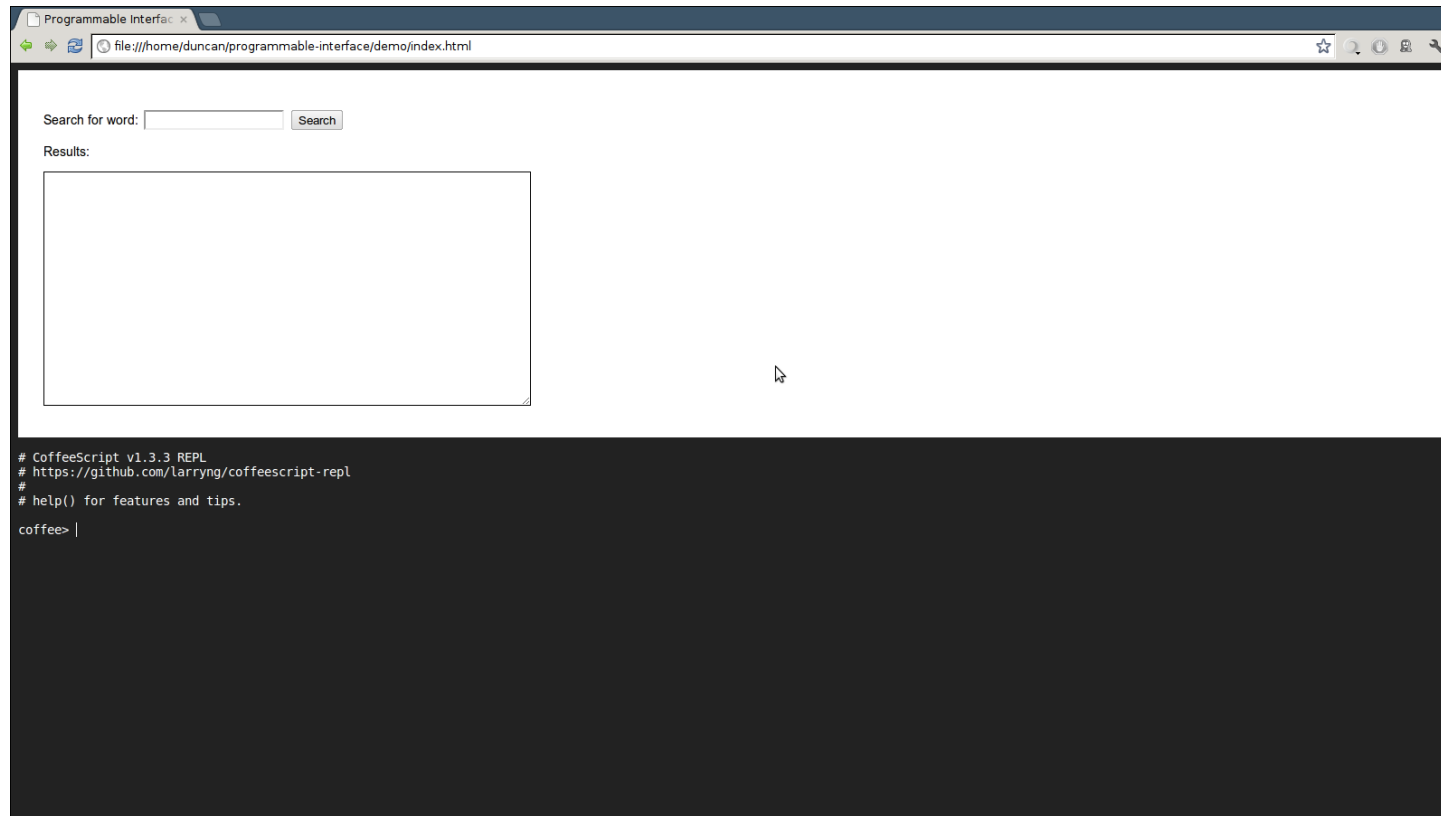

discoverability is different ...

... to usability

how might it look?

advantages

- ✓ as discoverable as a traditional GUI
- ✓ easily extensible by advanced users
- ✓ makes your app a platform for new uses
- ✓ much easier to test

this has succeeded before...

- ✓ Microsoft Office

- ✓ AutoCAD

- ✓ Emacs

- ✓ LibreOffice
